Open Portfolio

Johannesburg, South Africa

Technical Skills

- COBOL
- JCL
- DB2
- CICS (basic)
- REST APIs
- Java, Spring Boot (supporting)

Education

Eduvos (Undergraduate)

BSc Computer Science

2021 – 2024

Experience (Mainframe)

Absa Group Limited

COBOL Mainframe Development

2025 – 2026

- Supported and maintained COBOL-based banking systems in a mainframe environment
- Assisted with COBOL version upgrade (4.0 → 6.4) ensuring system stability
- Worked on debugging and analysis of batch job failures and production issues
- Participated in system testing, validation, and change implementation processes
- Worked with legacy banking code ensuring minimal disruption to production systems
- Assisted in reconfiguration of DYNCALL modules for system compatibility

Experience (Java)

UVU Africa

Java Full-Stack Development (Trainee) 2024 – 2025

- Developed backend applications using Java and Spring Boot
- Built and consumed REST APIs for frontend-backend integration
- Worked with MySQL and Supabase databases for data management
- Developed responsive frontend interfaces using React, HTML, and JavaScript
- Participated in debugging, testing, and deployment of web applications
- Used GitHub for version control and collaborative development
- Deployed applications using platforms such as Render, Netlify, and Vercel
- Built secure applications with focus on scalable backend architecture

Certifications

Enterprise & Mainframe

IBM COBOL Core

z/OS Commands and Panels

COBOL Testing and Debugging

COBOL Software Development Practices

Professional Development

Agile & Scrum

Business Analysis Fundamentals

Software & Web Development

JavaScript, HTML, CSS

SQL for Data Science

Linux & Shell Scripting
